Subject: Riverside Drive

John---

We have received several calls today regarding EDAW's position on Riverside Drive. To clarify our position we offer the following: EDAW does recommend the closing of Riverside Drive, between First Street and the RR right-of-way, within Town Lake Park. It is our recommendation as the park master planners, charged with creating a great urban park, that the closing of this segment of the street provides the best opportunity for creating a significant and contiguous open space in the heart of the city.

We hope that this statement helps clarify and resolve this particular issue.

Laura
